Portfolio

Christiana Industries, L.L.C.

Christiana is a Chicago area-based manufacturer of highly engineered low-voltage light assemblies, providing light sockets and wire harnesses to over 300 original equipment manufacturers in more than 20 industries. WCP partnered with management to acquire Christiana from a retiring owner in 1994. Since WCP's initial investment, Christiana has become QS9000 certified, moved its production to a new facility in Monterey, Mexico, increased productivity by installing automating production systems, converted from batch to cell manufacturing and improved working capital management.

Industry:	Manufacturing – Low Voltage Light Assemblies
Headquarters:	Vernon Hills, Illinois
Date of Investment:	November 1994
