**Regency Hospital Company, L.L.C**

WCP formed Regency Hospital Company in 2001 by partnering with a highly experienced group of managers with an outstanding record of success in the long-term acute care (“LTAC”) industry. LTAC hospitals are specialized intensive care facilities that focus on treating critically ill patients for extended periods of time. Regency currently operates nineteen hospitals around the country and has several more in active development.

“We at Regency are very fortunate to be partnered with Waud Capital. Their support in strengthening our Board with some of the best talent in healthcare, combined with their efforts in working with us as a team on the business and finance side of our company, has allowed Regency to prosper and set a standard of excellence in the LTAC industry.”

*Bill Anderson,  
President and CEO,  
Regency Hospital Company*
